

## NEW MEXICO

## What is the Scorecard?

The *Long-Term Services and Supports State (LTSS) Scorecard* is a tool that measures long-term services and supports system performance at the state level. State and federal policy makers, providers, advocates and other stakeholders can use the *Scorecard* to assess areas of strength and identify opportunities for improvement within their respective state's LTSS system. The *Scorecard* scores states across five dimensions of LTSS, comprised of 50 indicators. State performance across overall LTSS and within the five dimensions is ranked and organized into tiers, from better to worse performing, 1-5 from top to bottom. For full detailed methodology and data on state performance, please visit [ltsschoices.aarp.org](https://ltsschoices.aarp.org).

Dimension	Tier	Rank	Number of indicators with trend*	Number of indicators showing:		
				Significant improvement	Little or no change	Significant decline
<b>OVERALL</b>	<b>3</b>	<b>20</b>	<b>26</b>	<b>7</b>	<b>17</b>	<b>2</b>
Affordability & Access	3	23	5	2	3	0
Choice of Setting & Provider	3	24	7	3	2	2
Safety & Quality	3	25	4	0	4	0
Support for Family Caregivers	2	17	9	1	8	0
Community Integration	3	23	1	1	0	0

\* Trend cannot be shown if data are missing for either the current or reference data year.

<b>Multisector Plans for Aging</b> - Existence of Multisector Plan on Aging or comparable statewide strategic plan as defined by The SCAN Foundation ⓘ		0.0	*	*	*	8	1.0
Current rate for all indicators is the most recent data at the time of report writing, always 2020 or later (during COVID). Many indicators have comparable reference rate data for 2019 or earlier (before COVID). * Comparable data not available for reference and/or current year. Rank cannot be calculated without current data. Rank is not calculated for policy indicators. Change cannot be calculated without both reference and current data. ** US Value column displays national rate for metrics and a count of states with any policy credit for policy indicators. † Detailed race/ethnicity data available at <a href="https://tsschoices.aarp.org">https://tsschoices.aarp.org</a> ⓘ Innovation Point					<b>Key for Change:</b>

**2023 LTSS State Scorecard Equity Performance Data for: New Mexico**

Equity in a high-performing LTSS system means that high performance is shared across all groups. States where every measured group does well will score highly, and states in which some groups perform poorly will score lower. Nine of the 50 indicators in the 2023 Scorecard are equity indicators with data available to look at performance by race and ethnicity; instead of being scored on the metric value for the entire population, states are scored only for the value of the lowest performing racial/ethnic group.

		Indicator Performance				Indicator Values by Race and Ethnicity								All Races/Ethnicities#	
		Lower Performance	Group with Lower Performance	Relative to U.S. Performance All Races/Ethnicities	2023 Scorecard Indicator Rank	American Indian/Alaska Native	Asian	Black/African American	Hispanic/Latino	Native Hawaiian/Pacific Islander	Two or More (2+ Races)	Combination of Previous Groups*	White	Performance	Rank
<b>NH Residents with Low Care Needs -</b> Percentage of nursing home residents with low care needs	NM	16.3%	Combination	7.5%	38	12.5%	††	18.8%	17.4%	††	††	16.3%	14.4%	14.6%	46

<b>NH Residents with Pressure Sores -</b> Percentage of high-risk nursing home residents with pressure sores	NM	10.7%	White	0.5%	16	12.4%	††	††	9.8%	††	††	10.6%	10.7%	11.2%	39
	US	11.8%	Combination	1.6%		12.0%	8.6%	12.6%	10.6%	7.9%	9.5%	11.8%	9.5%	10.1%	
<b>NH Inappropriate Antipsychotic Use -</b> Percentage of nursing home residents who are inappropriately receiving an antipsychotic medication	NM	11.1%	White	1.6%	26	12.3%	††	††	10.2%	††	††	10.9%	11.1%	10.8%	26
	US	10.3%	White	0.7%		10.2%	5.9%	7.0%	8.3%	7.4%	6.8%	7.3%	10.3%	9.5%	
<b>NH with Top Quality Ratings -</b> Percentage of nursing home residents living in a facility with a 5-star rating on CMS Care Compare Quality Star ratings	NM	24.5%	Combination	2.8%	14	29.3%	††	18.4%	23.0%	††	††	24.5%	25.7%	23.7%	26
	US	16.0%	Combination	-5.6%		19.4%	29.2%	13.4%	18.7%	29.1%	25.1%	16.0%	23.6%	21.6%	

\* Combined indicator value for nursing home residents who are AI/AN, Asian, Black, Hispanic, NH/PI, or two or more races. To maximize comparability between states and minimize the effect of small samples, the indicator value is defined as the lower performance between (a) this combined group and (b) white residents.

†† Due to small sample size of one or more racial/ethnic groups, this value could not be calculated. An imputed value was used for scoring, but is not displayed or ranked.

# Performance value and rank in the last two columns are for all people in the state, not broken down by race/ethnicity. Provided to facilitate comparison to previous editions of the Scorecard.

		Indicator Performance				Performance in the 10% of facilities with the highest % of people admitted who are:							All Facilities#	
		Lower Group Performance	Group with Lower Performance	Relative to U.S. Performance for All Races/Ethnicities	2023 Scorecard Indicator Rank	American Indian/Alaska Native	Asian	Black/African American	Hispanic/Latino	Native Hawaiian/Pacific Islander	White	Two or More (2+ Races)	Performance	Rank
<b>NH Staffing Levels -</b> Nursing home direct care staff hours per resident per day	NM	2.81	Black	-0.72	42	2.93	3.17	2.81	3.46	3.61	3.33	3.20	3.19	47
	US	3.31	Black	-0.22		3.49	3.54	3.31	3.43	3.50	3.86	3.56	3.54	
<b>Successful Discharge to Community -</b> Percentage of people admitted to nursing homes who were successfully discharged to the community within 100 days	NM	44.7%	White	-7.1%	21	56.1%	64.1%	47.1%	45.6%	55.9%	44.7%	54.4%	52.0%	30
	US	44.7%	Black	-7.2%		50.8%	50.3%	44.7%	46.9%	54.5%	51.0%	55.1%	51.8%	

Values for each racial/ethnic group are calculated only for the 10% of facilities in the state with the highest percentage of admissions of each racial/ethnic group, and are applicable to residents of all races/ethnicity in those selected facilities. The indicator value is worst performance among all seven 10% samples.

†† Due to small sample size of one or more racial/ethnic groups, this value could not be calculated. An imputed value was used for scoring, but is not displayed or ranked.

\*Performance value and rank in the last two columns are for all facilities in the state, not broken down by race/ethnicity. Provided to facilitate comparison to previous editions of the Scorecard.

		Indicator Performance				Performance in the 10% of neighborhoods with the highest % of residents who are:				All Neighborhoods#	
		Lower Performance	Group with Lower Performance	Relative to U.S. Performance for All Races/Ethnicities	2023 Scorecard Indicator Rank	Asian	Black/African American	Hispanic/Latino	White	Performance	Rank
<b>Livability Index: Transportation -</b> Transportation Category Score (composite indicator, scale 0-100 points)	NM	51	White	-1	12	58	61	52	51	54	20
	US	47	White	-5		55	58	59	47	52	
<b>Livability Index: Housing -</b> Housing Category Score (composite indicator, scale 0-100 points)	NM	49	Asian	-2	19	49	56	59	54	54	22
	US	48	White	-3		48	61	58	48	51	

Values for each racial/ethnic group are calculated only for the 10% of neighborhoods in the state with the highest percentage of the population who are of each racial/ethnic group, and are applicable to residents of all races/ethnicity in those selected neighborhoods. The indicator value is lowest performance among all four 10% samples.

\*Performance value and rank in the last two columns are for all neighborhoods in the state, not broken down by race/ethnicity.
